Company Background

In 1905 our Grand Father laid the foundation of this Empire, He was a very well known figure in India (before partition) for his expertise, innovation, forward thinking and bringing the quality of crop as one of the best in world.

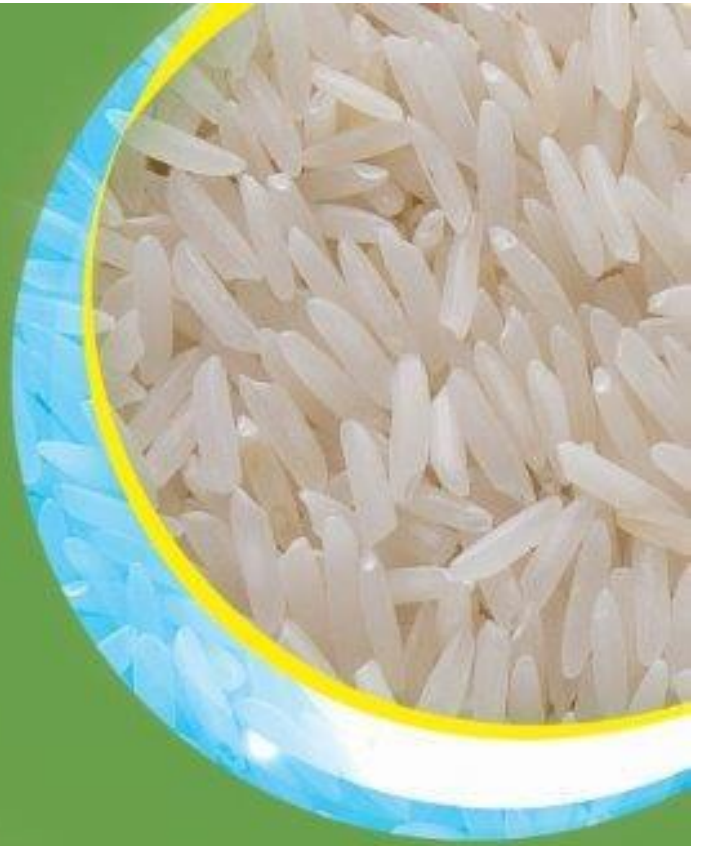

Later in 1950 the skills and talent got transferred from one generation to another, Our Father Haji Mohammad Yasin took the responsibility and took some bold steps, And for the first time in Pakistan went beyond the boundaries & introduced this top quality product to world.

He is the one who changed the way rice was traded in Pakistan by involving private sector and he is the one who exported the 1st rice shipment which transformed the trade of rice in Pakistan completely.

The enterprise further expanded with the introduction of his sons in the business. The company witnessed drastic evolution with the involvement of our youngest brother who introduced latest techniques, equipments and policies & procedures to bringing the company at par with the international standards.

Introduction

Introduction

Established a century ago in 1905 by Late Haji Fazal Karim who founded the Agriculture Concern in Mukerianwala (East Punjab) and supervised 11 Rice Mills in the area. After the partition of sub-continent in 1947 he migrated to Pakistan & stabled his industry in the rice growing area of Hafizabad world wide famous for Basmati rice.

Introduction

The whole family worked as a team & we introduced our own system of them, apart from buying Paddy from open auction we purchased the selected vendors & we also extend loan to private growers to purchase & sow the best quality Basmati seed to ensure the quality products. We buy back paddy and process it in our mills and produce the quality rice for the international market.

Since those early days we have grown in stature and can now proudly claim that our product is exported & circulated all over the globe i.e. USA, Canada, Australia, Asia, Africa, Europe & Gulf Markets.
